

Code42 Fast Facts

About Code42 and our Solutions

Code42 is the leader in insider threat detection, investigation and response. Native to the cloud, Code42 rapidly detects data loss, leak, theft and sabotage as well as speeds incident response – all without lengthy deployments, complex policy management or blocking employee productivity. With Code42, security professionals can protect corporate data and reduce insider risk while fostering an open and collaborative culture for employees. Backed by security best practices and control requirements, Code42’s insider threat solution can be configured for GDPR, HIPAA, PCI and other regulatory frameworks. More than 50,000 organizations worldwide, including the most recognized brands in business and education, rely on Code42 to safeguard their ideas.

Code42 is the Insider Risk Management leader. Native to the cloud, the Code42[®] Incydr[™] solution rapidly detects data loss, leak and theft as well as speeds incident response – all without lengthy deployments, complex policy management or blocking employee productivity. The Code42[®] Instructor[™] solution helps enterprises rapidly mature their Insider Risk Management programs by incorporating holistic, hyper-relevant Insider Risk education for end-users to reduce risk events due to accidental and negligent behavior.

With Code42, security professionals can protect corporate data and reduce insider threats while fostering an open and collaborative culture for employees. Backed by security best practices and control requirements, the Code42 Incydr solution is FedRAMP authorized and can be configured for GDPR, HIPAA, PCI and other regulatory frameworks. More than 50,000 organizations worldwide, including the most recognized brands in business and education, rely on Code42 to safeguard their ideas.
