

CODE42 INCYDR FOR FEDERAL DEPARTMENTS AND AGENCIES

Data Risk Detection and Response for Insider Threat

Code42 Incydr™ is a FedRAMP-authorized SaaS solution that proactively manages insider risk by protecting sensitive and strategic files from exfiltration. It brings together three dimensions of risk to quickly and accurately detect and respond to insider threat with unrivaled simplicity, signal and speed.

FILE

- Monitors all files – not just those that have been deemed sensitive
- Offers critical metadata including file name, owner, size, path, category and hash
- Provides authorized security analysts with the ability to review file content

VECTOR

- Detects exposure and exfiltration including web browser uploads, cloud sync app activity, Airdrop, and removable media
- Filters file events to reflect what is considered trusted vs untrusted activity
- Provides vector detail like sync username, domain name, browser tab title and URL, and removable media make, model, volume name, partition ID and serial number

USER

- Identifies behavioral Insider Risk Indicators such as remote activity, off-hour file events and attempts to conceal exfiltration
- Allows security teams to programmatically monitor users with increased risk factors, such as departing and contract employees
- Provides 90 days of historical user activity to surface trends and abnormalities

More collaboration, more insider risk.

Employees and contractors are being onboarded, enabled, empowered and offboarded, all in a remote world. Security teams need to keep up with these risks, while remaining compliant. Security tools like DLP, UEBA and CASB typically address a single dimension of risk, take months to deploy, and burden security teams with constant fine-tuning. It's time for a new approach to managing and mitigating data risk from insider threats.

89% of CISOs believe a fast-paced collaborative culture creates great risk

66% of data breaches involve an insider

69% of organizations breached by insider threat had a DLP solution in place

– Code42 Data Exposure Report

Incydr detects endpoint exfiltration events through vectors including USB, cloud sync applications, Airdrop, web browsers and other web apps.

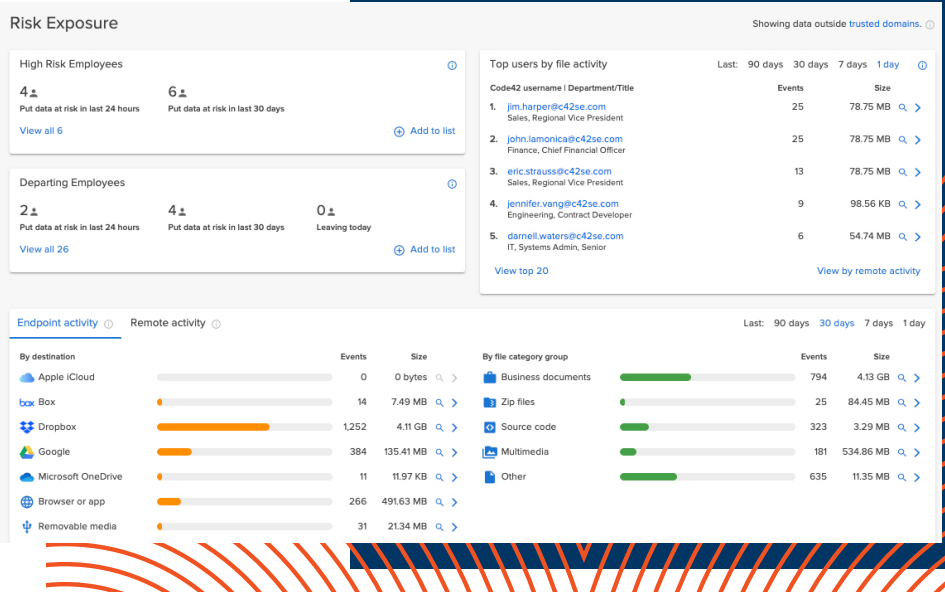

Detection: Pinpoint Insider Risk Indicators using dashboards, lenses and alerts.

Investigation: Simplify insider risk investigations with user profiles and forensic search.

Response: Integrate with SIEM, SOAR and other existing systems. Compile, document and disseminate evidence. Remediate risk through corrective or legal action, training, and more.

CODE42 QUICK FACTS

Founded in 2001

Locations:

Minneapolis (HQ) | Denver
Washington DC | London

Trusted by:

Customers include leading security brands such as CrowdStrike, Splunk, Ping Identity, Palantir and Okta

20 federal agencies
across **8** departments

6 of **10** of the largest
tech companies

13 of the world's most
valuable brands

7 of **8** Ivy League schools

CODE42 PROTECTS DATA FOR 20 FEDERAL AGENCIES ACROSS 8 DEPARTMENTS

FAST AND EASY DEPLOYMENT

- AWS cloud environment
- Windows, Mac and Linux
- 2-week average deployment time
- 230% ROI in 3 years
- Federal customer support based in U.S.

Corporate Headquarters
100 Washington Avenue South
Minneapolis, MN 55401

Code42 is the leader in insider risk detection and response. Native to the cloud, Code42 rapidly detects data loss, leak, theft and sabotage as well as speeds incident response – all without lengthy deployments, complex policy management or blocking employee productivity. With Code42, security professionals can protect corporate data and reduce insider risk while fostering an open and collaborative culture for employees. Backed by security best practices and control requirements, Code42's insider risk solution can be configured for GDPR, HIPAA, PCI and other regulatory frameworks.

More than 50,000 organizations worldwide, including the most recognized brands in business and education, rely on Code42 to safeguard their ideas. Founded in 2001, the company is headquartered in Minneapolis, Minnesota, and backed by Accel Partners, JMI Equity, NEA and Split Rock Partners. Code42 was recognized by Inc. magazine as one of America's best workplaces in 2020.
